

Please do not allow LPFM stations to take priority over current or future FM translator service.

K-LOVE based in Sacramento, CA is heard locally on 90.7 FM in Oxford, MS. I appreciate the programming that K-LOVE provides as it is very family friendly. I do not have to monitor the broadcast for innappropriate topics, especially when my children are listening.

If it were displaced by another station, we could lose the broadcast that my family and those in our community enjoy and support.

I travel frequently, and also enjoy the broadcast on repeater station across the nation.

Thank you,

Rich Mack
